PROFESSIONAL SUMMARY

Detail oriented Software Developer and Information Technology graduate (Cum Laude) with hands-on experience in fullstack web and mobile development. Skilled in building reliable applications. Good at working within a team to complete the software development life cycle (SDLC) and deliver secure, user-friendly solutions.

WORK EXPERIENCE

GS Food Products Trading | Freelance Developer

Apr 2025 – Jul 2026

- Engineered an end-to-end mobile POS solution specifically designed to empower small business owners with seamless transaction handling.
- Optimized stock monitoring by implementing automated inventory tracking, significantly cutting down manual operational hours.

PrometheusEnterprise | Software Engineer Intern

Nov 2025 – Mar 2026

- Contributed to the full-cycle development of e-notaryo, a specialized web-based digital notary platform.
- Built and integrated new software features, enhancing the platform's core functionality and improving the overall user experience.
- Conducted rigorous testing protocols to ensure high-level data security and maintain a reliable, bug-free environment for users.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, PHP, C++, SQL

Web & Mobile: React, Next.js, Node.js, Express, React Native, HTML5, CSS3, Tailwind/Bootstrap

Databases: PostgreSQL, MySQL, NoSql, Prisma ORM, MongoDB, Supabase

Tools & Concepts: Git, GitHub, RESTful APIs, UI/UX Prototyping

PROJECTS

EngiManage (Capstone Thesis)

2026

- Managed the full-stack development of a comprehensive project management system tailored for engineering companies. Designed features to track tasks, allocate resources, and monitor deadlines.

MeTubeAI Video-to-Notes Tool

2026

- Built an intelligent study platform featuring a Next.js frontend and a Python backend that processes video transcripts using AI. Automated the generation of structured study notes, drastically reducing manual note taking time.

POS Mobile - Point of Sale System

2025

- Architected and deployed a mobile Point-of-Sale (POS) application using React Native, Node.js and PostgreSQL to streamline retail checkout operations for small business owners.

Budget Tracker

2024

- Developed a personal finance application in Java to track daily expenses and manage personal budgets. Implemented logic to categorize spending and provide real-time budget tracking, helping users achieve financial goals.

EDUCATION

PHINMA University of Iloilo

Graduated: 2026

Bachelor of Science in Information Technology (Cum Laude)
